98-170 and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I dont think you should mess with the service because we are using a prepaid service we paid for the time we are using. You dont charge cb users to talk on thier cb's or do you charge for scanners or charge the public for radio signals thats all free and we pay for the time we use i dont use my phone hardly @ all what you are trying to do is do away with something good as usual we the public have a right in this country and i think it should be up to us wether or not there should be a charge added to our service

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Troy Grimmett
